## JOB & ECONOMY

To guarantee more prosperity for ourselves and for future generations we must create conditions to spur investments and innovation to retain and create thousands of good paying jobs. To continue current economic expansion, we need to bring back and create high-paying manufacturing and IT positions. My plan calls for the creation of brand-new Illinois Industrial Zones for Advanced Technologies, to make Illinois a better place for new and existing businesses, entrepreneurs, college and high school graduates, and most of all, for all hard working people of Illinois.

## DEBT & TAXES

To reduce the tax burden on the middle class and working families, I will support national tax reform to erase corporate loopholes and institute a low income tax rate for workers and a fair tax rate for employers.

Our national debt continues to grow at an alarming pace. As your Senator I will fight for responsible budgets to control spending and decrease our national debt. Our kids and grandkids should not foot the bill of uncontrollable spending. We must reform our students loan programs to address the 1.7 trillion dollars of the existing student debt.

## EDUCATION & ENVIRONMENT

Investment in our youth starts with early childhood education and ends with a good paying job in the future. I will make sure that our pupils and students have the resources and support they need today to become skilled workers and passionate innovators of tomorrow. Being considerate of the environment is important to me. I will support sensible and effective policies that don't kill jobs. I will make sure that all the stakeholders share the responsibility for protecting our environment.

### CASEY'S LEGISLATIVE PLEDGE AS THE U.S. SENATOR

## IMMIGRATION AND NATIONAL SECURITY

Security of our citizens needs to be guaranteed abroad and right here at home. A strong, modern military should be used as a deterrent. Advanced technology should protect lives of American soldiers in case of conflicts. Our borders need to be protected from terrorists and those looking to break our laws. As an immigrant to this country, I will support the overhaul of the immigration system to admit people who share our values and make positive contributions to our society.

## HEALTHCARE AND OUR COMMUNITY

Due to misguided policies of the past, there is a growing number of seniors, veterans and families who can not afford decent healthcare. I will work very hard to introduce and support all programs that enable our seniors, veterans, and families to get fair and affordable healthcare and the dignity they deserve. I am a **PROUD PRO-LIFE CANDIDATE**.
