MAKE AMERICA SAFE AND SECURE AGAIN

As future senator of the United States from Illinois, I would like to introduce myself to the people of Illinois by starting with my initial publication – "Casey's Key Pointe Newsletter."

This will be published three (3) times before the June 28 elections to inform Illinois voters regarding Casey's ongoing campaign efforts, events of Casey's Allied Coalition of Republican candidates, as well as the hotly debated key issues of the day. Thereafter, I intend to continue this publication on a regular basis. My hope is that all voters will recognize this source as an essential element to learn about my future legislative programs and new ideas which I would like to implement as senator. Additionally, to complement this newsletter, please also visit www.caseyforsenate.com where you will find also my most recent video materials which Casey recorded for the McHenry GOP. 🇺🇸

IN EACH NEWSLETTER CASEY WILL PRESENT HIS VIEWS ON THE SELECTED TOPICS.
IN THIS ISSUE:

CASEY'S KEY POINTE ON ECONOMY

Ever since Joe Biden took office as President, our economy has been in a continuous tailspin with no end in sight. It is now certain that a change of the administration may not come soon enough to avoid total economic disaster.

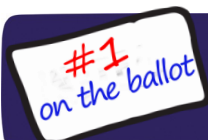

Under Biden national debt has increased already by \$1.5 trillion and now is at \$30 trillion, inflation reached 40-years high of 8.5%, rising costs of commodities are out of control and gas prices have doubled. National crime levels are off the charts and social engineering efforts have intensified branding MAGA, that's you, as being the most dangerous group. Supply chains are broken now and shortages of essentials, such as baby milk formula are on the rise.

And now, we have a potential war with a nuclear nation, Russia, which by all accounts nobody wants.

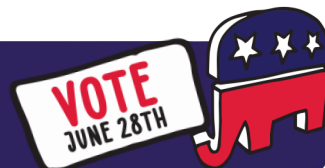

What is next or who is next on the chopping block of Joe Biden.

Our only hope that the midterm elections will stop Biden's abysmal failures.

The only recourse and remedy is that all Republicans and Independents will vote the Democrats out of office, first in the Primaries on June 28 and then nail them on November 8, 2022. 🇺🇸

CASEY'S KEY POINTE ON THE 1ST AMENDMENT:

Never before in our Nation's history has the camouflage of democracy been used to assault our freedoms and liberties. Just recently, Secretary of DHS Mayorka's announced the creation of the "Ministry of Truth", to be exact, its called: Disinformation Governing Board. A concept straight from the Orwellian World of total society control. The truth has become fiction, and the lie is becoming the official truth under the new Biden doctrine. If we cannot exercise the freedom of speech, we are not free any more, we are subject to or even the slaves under the control of the all too powerful state. To stop it, we must kill this beast by eliminating their special privileges such as Section 230 (all social media groups), self-control status (Disney World), or just literally buying out the left-centered companies (Elon Musk vs. Twitter). The easiest recourse is to just vote them out of their offices where they wreck the most havoc, e.g. school boards.

LET'S HAVE AMERICA BE RULED BY COMMON SENSE!
LET'S STOP THE DAMN NONSENSE! 

CASEY'S KEY POINTE ON THE 2ND AMENDMENT:

If the 1st Amendment was almost always taken for granted, the 2nd Amendment right is the most cherish and revered. From the onset of our Nation we took pride in our right to carry arms. More than ever, today, this very special right has a very high significance when we are under assault by our own government requesting to use extreme measures to use them, even to confiscate our guns and arms. This form of protection is even more desired today when crime flourishes in our society and the criminals are treated as a protected class. We must use all means necessary by electing Pro-2nd Amendment politicians and by educating the public on ownership and use of guns much the way we administer driving classes in our high schools.

The weapon may be a tool of choice to harm but it is the person that ultimately is responsible. In Asian countries the choice of weapon is a knife, but no one in Asia is talking about confiscating knives or banning manufacturers from the production of knives. I hope I have made my point!

CASEY CHLEBEK PRESENTS PROGRAM AT THE ILLINOIS FAMILY ACTION FORUM

Press Release#1

March 26, 2022 - Arlington Heights, IL

US Senate candidate, Casey Chlebek, took to the podium to voice his campaign program. A key element of the program is a policy for a Safe and Secure America - without crime, without delusional CRT, without open borders, but a society based on law and order. As an immigrant coming from a formerly socialist state, Casey has a unique experience in living through political upheavals and failed policies.

On Casey's agenda is a comprehensive economic program that includes: Special Economic Zones for Illinois, focusing on the latest technologies: 5G, AI, Quantum Computing, etc. Further, a US economic program must include industrial jobs, bringing back factories from abroad, lowering of the debt, and environmental protection as a job building tool.

The above programs are a must for the next generation to thrive, succeed and live in happiness. Casey is committed to restoring the cornerstone of American values, equal opportunity for all. He is also focused on getting the ethnic vote out for the Republican Party and seeing minorities and different ethnic groups take an active part in the political process.

During the Arlington Heights IFA Forum, Mr. Chlebek took up the challenge to awaken and lead ethnic voters in the upcoming elections. This resulted, a week later in his Park Ridge Office, in the creation of the Allied Coalition of Candidates for the Voice of Ethnic Voters, which includes candidates for Federal and State offices.
